

(a) Good cause has been shown for the use of the alternate method or procedure,

(b) The alternate method or procedure is within the purpose of, and consistent with the effect intended by, the specifically prescribed method or procedure, and affords equivalent security to the revenue, and

(c) The alternate method or procedure will not be contrary to any provision of law, and will not result in an increase in cost to the Government or hinder the effective administration of this subpart.

No alternate method or procedure relating to the giving of any bond or to the assessment, payment, or collection of tax, shall be authorized under this section. A manufacturer who desires to employ an alternate method or procedure shall submit a written application, in triplicate, to the regional director (compliance) for transmittal to the Director. The application shall specifically describe the proposed alternate method or procedure, and shall set forth the reasons therefor. Alternate methods or procedures shall not be employed until the application has been approved by the Director. The manufacturer shall, during the period of authorization of an alternate method or procedure, comply with the terms of the approved application. Authorization for any alternate method or procedure may be withdrawn whenever, in the judgment of the Director, the revenue is jeopardized or the effective administration of this part is hindered. Any authorization of the Director under this section shall be retained as part of the manufacturer's record in accordance with this subpart.

§ 40.386 Emergency variations from requirements.

The Director may approve methods of operation other than as specified in this subpart, where it is determined that an emergency exists and the proposed variations from the specified requirements are necessary, and the proposed variations—

(a) Will afford the security and protection to the revenue intended by the prescribed specifications;

(b) Will not hinder the effective administration of this subpart; and

(c) Will not be contrary to any provision of law. Variations from requirements granted under this section are conditioned on compliance with the procedures, conditions, and limitations set forth in the approval of the application. Failure to comply in good faith with such procedures, conditions and limitations shall automatically terminate the authority for such variations and the manufacturer thereupon shall fully comply with the prescribed requirements of regulations from which the variations were authorized. Authority for any variation may be withdrawn whenever in the judgment of the Director the revenue is jeopardized or the effective administration of this subpart is hindered by the continuation of such variation. Where a manufacturer desires to employ such variation, the manufacturer shall submit a written application to do so (in triplicate) to the regional director (compliance) for transmittal to the Director. The application shall describe the proposed variations and set forth the reasons therefor. Variations shall not be employed until the application has been approved. In accordance with this subpart, any authorization of the Director under this section shall be retained as part of the manufacturer's records.

§ 40.387 Penalties and forfeitures.

Anyone who fails to comply with the provisions of this subpart becomes liable to the civil and criminal penalties, and forfeitures, provided by law.
